INDEX

Volume 147, January–March 1965

Acetazolamide, diuretic action, 399
Acetylcholine, flux from nerve-diaphragm after administration of choline-methyl-C^{14}, 336
  ganglionic effects, 330
Adrenal-pituitary factors in the modification of responses to drugs by stress, 376
Adrenergic blockade by guanethidine related to binding and norepinephrine release, 303
Adrenergic blocking drugs, and epinephrine-induced inhibition of milk ejection, 48
β-Adrenergic blocking drugs, antiarrhythmic actions, 194
Adrenergic innervation of spleen, 145
Alcohol dehydrogenase and ethanol metabolism in chronic protein deficiency, 385
3-Amino-1,2,4-triazole, use to detect hydrogen peroxide *in vivo*, 139
d-Amphetamine, influence on locomotor activity and brain amines in mice, 96
Andersen, N. B. and Gravenstein, J. S., 40
Anderson, J. H., *see* Robinson, J. D., 236
Angiotensin, influence of methylphenidate on vascular action of, 289
Aniline, hemolysis and generation of hydrogen peroxide, 139
Anticoagulant effect of benzoquinones, 130
Antihistamines, teratogenicity in the rat, 391
Aortic strip, effects of sympathomimetic amines, 76
Apomorphine, mechanism of emetic action, 416
Aramendía, P., *see* Kaumann, A., 54
Arecoline, saluretic effects in dogs, 32
Atkinson, R. A., Witt, D. and Long, J. P., 172
ATPase in kidney cell membranes, inhibition of Na^+ and K^+ activated enzyme by mercurials, 23
Atropine, antagonism of arecoline-induced saluresis, 32
  metabolism and excretion in hypothermia, 252
  uptake, metabolism and elimination by perfused rat liver, 260
Axelrod, J., *see* Fischer, J. E., 181
  see Snyder, S. H., 371

Baer, J. E., *see* Beyer, K. H., 1
Basso, N., *see* Kaumann, A., 54
Benforado, J. M. and Wiggins, L. L., 70
Benzoquinones, vitamin K-like and antagonistic activity, 130
Benzpyrene, stimulation of drug metabolism and proliferation of endoplasmic reticulum, 112
Beyer, K. H., Baer, J. E., Michaelson, J. K. and Russo, H. F., 1
Bhagat, B., Gordon, E. K. and Kopin, I. J., 319
Bianchi, C. P., 360
Bile as a route of excretion of atropine metabolites, 252
Binding of guanethidine and norepinephrine, 303
Blaber, L. C., *see* Karczmar, A. G., 350
Blood pressure, action of thiopental, 298
  effect of quindonium, 212
  effects of desmethylimipramine, 54
  effects of sympathomimetic amines, 76
Booher, K. D., *see* Scriabine, A., 277
Borison, H. L., *see* Gaitondé, B. B., 409
Bousquet, W. F., Rupe, B. D. and Miya, T. S., 376
Brain amines, content related to locomotor activity, 96
Brain nerve ending particles and microsomes, uptake of 5-hydroxytryptamine and histamine, 236
Bretylium, effect on pineal 5-hydroxytryptophan decarboxylase activity, 371
  influence on action of dichloroisoproterenol on heart, 65
  inhibition of nicotine effect on pupil, 172
Brodie, B. B., *see* Chang, C. C., 303

Calcium, and muscle contraction, 360
Cardiac arrhythmias, antagonized by *beta* adrenergic blocking drugs, 194
Cardiac glycosides, mechanism of emetic action, 409, 416
  ouabain effect on myocardium modified by reserpine, 205
Cardiovascular system, effects of quindonium, 212
Carter, M. K., *see* Williams, R. L., 32
Catecholamine biosynthesis, inhibition by α-methyl-tyrosine, 86
Catecholamines, and hypotensive action of thiopental, 298
  effect on CCl_4-induced liver necrosis, 103
Chai, C. Y., *see* Share, N. N., 416
Chan, W. Y., 48
Chang, C. C., Costa, E. and Brodie, B. B., 303
Chemoreceptor trigger zone, action of cardiac glycosides, 409
  actions of apomorphine and deslanoside, 416
Chemoreceptors, carotid, response to cholinomimetic agents and to cyanide, 324
Chlorcyclizine teratogenicity in the rat, 391
Chlordane, stimulation of drug metabolism and proliferation of endoplasmic reticulum, 112
Choline-methyl-C^{14}, flux from rat nerve-diaphragm, 336
Cholinergic innervation of spleen, 145

Cholinesterase reactivator, 2-pyridine aldoxime, sympathomimetic effects in dogs, 153
Cholinomimetic drugs, effect on sympathetic ganglia and carotid chemoreceptors, 324
Coagulation and vitamin K activity of benzoquinones, 130
Cocaine, influence on hypotensive action of thiopental, 298
influence on locomotor activity and brain amines in mice, 96
Cohen, E. N., Corbascio, A. and Fleischli, G., 120
Cohen, G. and Hochstein, P., 139
Constantine, J. W., *see* Scriabine, A., 277
Corbascio, A., *see* Cohen, E. N., 120
Cordotomy (cervical), effect on CCl_4-induced liver necrosis, 103
Costa, E., *see* Chang, C. C., 303
Cyanide, effect on sympathetic ganglia and carotid chemoreceptors, 324

Dayrit, C., *see* Leaders, F. E., 145
Deslanoside, mechanism of emetic action, 409, 416
Desmethylimipramine, cardiovascular effects related to catecholamine release, 54
Dhalla, N. S., *see* Vogin, E. E., 65
Dichloroisoproterenol, antagonism of actions of desmethylimipramine, 54
mechanism of cardiac stimulant effects, 65
2,3-Dichloro-4-(2-methylenebutyryl)phenoxy acetic acid, *see* ethacrynic acid, 1
Digitalis, mechanism of emetic action, 409
glycosides, *see* cardiac glycosides, 416
2-(3-Dimethylaminopropyl)-1,3,3a,4,9,9a-hexahydro-4,9-*o*-benzeno-2H-benz[f]isoindole dimethiodide (MI-65-S), depression of muscle spindles, 343
DiPalma, J. R., *see* Zarro, V. J., 153
Disulfiram, effect on tyramine tachyphylaxis, 319
Diuretics, action of mercurials on ATPase and glycolysis in kidney, 23
comparison of effects, 399
ethacrynic acid, 1
Dopamine, brain content related to locomotor activity, 96

Emesis, induced by apomorphine and deslanoside by activation of CT zone, 416
induced by cardiac glycosides, 409
Endocrine modification of drug responses in the rat, 376
Epinephrine, cardiac arrhythmias, 194
mechanism of inhibition of milk ejection, 48
Erythrocytes, effect of local anesthetics on cation movement, 40
Ethacrynic acid, diuretic action, 399
saluretic and diuretic actions compared with other agents, 1
Ethanol metabolism in chronic protein deficiency, 385
Ethylenediaminetetraacetic acid (EDTA), effect on calcium movement in muscle, 360

Facilitation of ganglionic responses to drugs by preganglionic stimulation, 330
Fetal abnormalities produced by antihistamine administration to mother, 391
Fetus, norchlorcyclizine concentration after treatment of mother with meclizine, 380
Fischer, J. E., Kopin, I. J. and Axelrod, J., 181
see Kopin, I. J., 186
see Snyder, S. H., 371
Fleischli, G., *see* Cohen, E. N., 120
Fleming, W. W., *see* Stump, J. M., 298
Fouts, J. R. and Rogers, L. A., 112

Gaitondé, B. B., McCarthy, L. E. and Borison, H. L., 409
Ganglia, sympathetic, response to cholinomimetic agents and to cyanide, 324
Ganglion, effect of tetraethylammonium on transmission, 161
facilitation of effects of drugs by preganglionic stimulation, 330
Glycolysis in renal cell sap, effect of mercurial diuretics, 23
Gordon, E. K., *see* Bhagat, B., 319
Gravenstein, J. S., *see* Andersen, N. B., 40
Green, J. P., *see* Robinson, J. D., 236
Guanethidine, actions compared with those of guanisoquin, 277
binding by tissues and adrenergic nerve endings, 303
effect on pineal 5-hydroxytryptophan decarboxylase activity, 371
influence on action of dichloroisoproterenol on heart, 65
influence on hypotensive action of thiopental, 298
inhibition of adrenergic innervation of spleen, 145
Guanisoquin, pharmacological actions, 277

Harvey, J. A., 244
Heart, effect of quindonium, 212
effects of desmethylimipramine, 54
influence of hypothyroidism on heart of rats, 70
ouabain effect modified by reserpine, 205
sympathomimetic actions of dichloroisoproterenol, 65
Hemicholinium, inhibition of cholinergic innervation of spleen, 145
inhibition of nicotine effect on pupil, 172
Hemolytic agents, generation of hydrogen peroxide *in vivo*, 139
Hemorrhage shock, effect of quindonium, 225

Hexamethonium, inhibition of nicotine effect on pupil, 172
Histamine, ganglionic effects, 330
uptake by brain nerve ending and microsomal preparations, 236
vascular action antagonized by methylphenidate, 289
Hochstein, P., *see* Cohen, G., 139
Horn, R. S. and Manthei, R. W., 385
Horst, W. D., *see* Kopin, I. J., 186
Hydrochlorothiazide, diuretic action, 399
Hydrogen peroxide, detection in erythrocytes by use of 3-amino-1,2,4-triazole, 139
generation induced *in vivo* by hemolytic agents, 139
Hydroxyanilinium compounds, effect on neuromyal junction, 350
5-Hydroxytryptamine, action on vascular tissue antagonized by methylphenidate, 289
brain content related to locomotor activity, 96
level in brain after hypothalamic lesions, 244
uptake by brain nerve ending and microsomal preparations, 236
5-Hydroxytryptophan decarboxylase, in rat pineal gland, influence of sympathetic denervation, 371
Hypothalamic lesions, effect on brain amines and behavioral response to reserpine, 244
Hypothermia, effect on atropine metabolism in the perfused rat liver, 260
effect on CCl_4-induced liver necrosis, 103
effect on metabolism and excretion of atropine, 252
Hypothyroidism, effect on rat heart, 70

Iproniazid, influence on actions of amphetamine, 96
N-Isopropyl-*p*-nitrophenylethanolamine, antiarrhythmic actions, 194
Isoproterenol, influence on action of dichloroisoproterenol on heart, 65
mechanism of inhibition of milk ejection, 48

Johnson, M. C., *see* Osborne, M. W., 225
Jones, A., *see* Trendelenburg, U., 330
Jones, V. D., Lockett, G. and Landon, E. J., 23

K vitamin, antagonism and mimicking by substituted *p*-benzoquinones, 130
Kalser, S. C., Kelvington, E. J., Randolph, M. M. and Santomenna, D. M., 252, 260
Karczmar, A. G., Kim, K. C. and Blaber, L. C., 350
Kaufman, R. N., *see* Osborne, M. W., 225
Kaumann, A., Basso, N. and Aramendía, P., 54
Kelvington, E. J., *see* Kalser, S. C., 252, 260
Kidney, diuretic effects of a new pteridine compound (Wy-3654), 399
cell membrane ATPase and glycolysis, effect of mercurial diuretics, 23
saluretic effect of arecoline, 32
saluretic-diuretic effects of ethacrynic acid, 1
secretion of N′-methylnicotinamide inhibition by ouabain, 270
Kim, K. C., *see* Karczmar, A. G., 350
King, C. T. G., Weaver, S. A. and Narrod, S. A., 391
see Narrod, S. A., 380
Koch, R. C., *see* Scriabine, A., 277
Kopin, I. J., Fischer, J. E., Musacchio, J. M., Horst, W. D. and Weise, V. K., 186
see Bhagat, B., 319
see Fischer, J. E., 181

Landon, E. J., *see* Jones, V. D., 23
Larson, R. E. and Plaa, G. L., 103
Leaders, F. E. and Dayrit, C., 145
Levy, J. V. and Richards, V., 205
Liver, alcohol dehydrogenase and pyridine nucleotides in chronic protein deficiency, 385
atropine metabolism in perfused preparation, 260
necrosis due to CCl_4, effect of catecholamines, cordotomy and hypothermia, 103
Local anesthetics, inhibition of cation movement in erythrocytes, 40
Lockett, G., *see* Jones, V. D., 23
Locomotor activity, effects of *d*-amphetamine, cocaine and pipradrol related to brain amines, 96
Long, J. P., *see* Atkinson, R. A., 172
Lowenthal, J. and MacFarlane, J. A., 130
Lum, B. K. B., *see* Somani, P., 194

McCarthy, L. E., *see* Gaitondé, B. B., 409
MacFarlane, J. A., *see* Lowenthal, J., 130
McShane, W. K., *see* Scriabine, A., 277
Maengwyn-Davies, G. D., *see* Pruss, T. P., 76
Manthei, R. W., *see* Horn, R. S., 385
Matsushita, A., Yanagisawa, N. and Shimazu, H., 343
Maxwell, R. A., 289
McN-A-343 (*m*-chlorophenylcarbamoyloxy)-2-butynyl-trimethylammonium chloride, ganglionic effects, 330
Meclizine, physiological disposition in the rat, 380
teratogenicity in the rat, 391
Menadione, hemolysis and generation of hydrogen peroxide, 139
Mercaptomerin, diuretic action, 399
Mercurial diuretics, action on kidney cell membrane ATPase and on glycolysis, 23
Methylcholanthrene, stimulation of drug metabolism and proliferation of endoplasmic reticulum, 112

N′-Methylnicotinamide (NMN), inhibition of renal secretion by ouabain, 270
Methylphenidate, influence on effect of vasoconstrictor substances, 289
α-Methyl-tyrosine inhibition of tyrosine hydroxylase and norepinephrine biosynthesis, 86
Michaelson, J. K., *see* Beyer, K. H., 1
Microsomal drug metabolism, related to hepatic ultrastructure, 112
Microsomes from brain, uptake of 5-hydroxytryptamine and histamine, 236
Miknius, S., *see* Scriabine, A., 277
Milk ejection, influence of sympathomimetic amines on, 48
Miya, T. S., *see* Bousquet, W. F., 376
Monoamine oxidase inhibition, mechanism of the associated sympathetic blockade, 186
Morphine, lack of ganglionic effect, 330
Motor activity, simultaneous measurement with oxygen consumption in mice, 232
Musacchio, J. M., *see* Kopin, I. J., 186
Muscle, interrelationships between calcium and contraction, 360
  spindles, depression produced by an unsymmetrical bis-methonium compound (MI-65-S), 343
  twitch responses, modification by hydroxyanilinium and oxamide compounds, 350

Narrod, S. A., Wilk, A. L. and King, C. T. G., 380
  see King, C. T. G., 391
Nechay, B. R. and Pardee, L. M., Jr., 270
Nerve ending particles from brain, uptake of 5-hydroxytryptamine and histamine, 236
Nethalide, *see* pronethalol, 194
Neuromuscular blocking agents, distribution and elimination of *d*-tubocurarine, 120
Neuromyal junction, effect of hydroxyanilinium and oxamide compounds, 350
Nicotine, ganglionic effects, 330
  mechanism of sympathomimetic effect on pupil, 172
Norchlorcyclizine, a metabolite of meclizine, 380
  teratogenicity in the rat, 391
Norepinephrine, action on vascular tissue influenced by methylphenidate, 289
  and isolated atria, 313
  biosynthesis, blockade by α-methyl-tyrosine, 86
  brain content related to locomotor activity, 96
  depletion by guanethidine inhibited by desmethylimipramine, 54
  effect on myocardium from hypothyroid rats, 70
  level in brain after hypothalamic lesions, 244
  mechanism of inhibition of milk ejection, 48
  storage, effect of guanethidine, 303
  synthesis and depletion in response to repeated doses of tyramine, 319
  tissue depletion by guanisoquin, 277
  uptake and release in denervated salivary glands and decentralized sympathetic ganglia, 181
Octopamine as a false neurochemical transmitter after monoamine oxidase inhibition, 186
Osborne, M. W., Rowe, H. M., Kaufman, R. N., Johnson, M. C., Willems, W. and Winbury, M. M., 225
  and Winbury, M. M., 212
Ouabain, influence of reserpine on myocardial action, 205
  inhibition of secretion of N′-methylnicotinamide in chicken kidney, 270
  mechanism of emetic action, 409
Oxamides, effect on neuromyal junction, 350
Oxygen consumption, simultaneous measurement with motor activity in mice, 232
Oxytocin, milk ejection inhibited by sympathomimetic amines, 48

Pamaquine, hemolysis and generation of hydrogen peroxide, 139
Pappano, A. J. and Volle, R. L., 324
Pardee, L. M., Jr., *see* Nechay, B. R., 270
Pearson, J. E., Jr., *see* Williams, R. L., 32
Pereira, J. N., *see* Scriabine, A., 277
Phenobarbital, stimulation of drug metabolism and proliferation of endoplasmic reticulum, 112
Phenoxybenzamine, inhibition of nicotine effect on pupil, 172
Phentolamine, inhibition of nicotine effect on pupil, 172
Phenylhydrazine, hemolysis and generation of hydrogen peroxide, 139
Pineal gland, influence of sympathetic innervation on 5-hydroxytryptophan decarboxylase activity, 371
Pipradrol, influence on locomotor activity and brain amines in mice, 96
Pituitary-adrenal factors in the modification of responses to drugs by stress, 376
Plaa, G. L., *see* Larson, R. E., 103
Potassium, uptake by erythrocytes inhibited by local anesthetics, 40
Primaquine, hemolysis and generation of hydrogen peroxide, 139
Pronethalol, antiarrhythmic actions, 194
  (nethalide), blockade of sympathomimetic actions of dichloroisoproterenol, 65
Protein deficiency, effect on ethanol metabolism, 385
Pruss, T. P., Maengwyn-Davies, G. D. and Wurzel, M., 76
2-Pyridine aldoxime (2-PAM), sympathomimetic effects in dogs, 153

Quindonium, effect on hemorrhage shock, 225
  pharmacological actions, 212

Randolph, M. M., *see* Kalser, S. C., 252, 260
Redetzki, H. M., 232
Reserpine, alteration of effect of ouabain on myocardium, 205

behavioral depression affected by hypothalamic lesions, 244
effect on norepinephrine storage in salivary glands and sympathetic ganglia, 181
influence on action of dichloroisoproterenol on heart, 65
influence on actions of amphetamine, 96
influence on hypotensive action of thiopental, 298
influence on sympathetic stimulation of isolated atria, 313
inhibition of adrenergic innervation of spleen, 145
inhibition of nicotine effect on pupil, 172
Richards, V., *see* Levy, J. V., 205
Riker, W. K., 161

INDEX

Volume 148, April–June 1965

Acetylcholine, effect on atrial rhythm, 303
effect on nictitating membrane antagonized by MAO inhibitors, 40
identification of acetylcholine-like substance in sympathetic ganglia, 312
Acetylcholinesterase staining, correlation with catecholamine, fluorescence in innervation of smooth muscle, 225
Acetylstrophanthidin, interaction with reserpine on the heart, 193
ACTH, influence on skin homograft, 80
Adenosine, atrial depressant effect antagonized by caffeine, 202
Adler, M. W., 131
Adrenal cortical hormones, influence on rate of contraction of isolated rat atria, 75
Adrenergic blocking drugs, phenylpiperazine tetrazole derivatives, 54
Adrenergic fibers, correlation of acetylcholinesterase and catecholamines in, 225
Adrenergic receptors, effect of *dl*- and *d*-pronethalol on cardiac arrhythmias, 94
d-Aldosterone, positive inotropic effect on papillary muscle of monkey, 215
Analgesics, influence of route of administration, 373
Anesthetics, respiratory effects in cats, 123
Anticonvulsants, effect of diphenylhydantoin on electroshock seizure thresholds in developing rats, 144
Anti-inflammatory drug, N-(2,6-dichloro-*m*-tolyl) anthranilic acid (CI-583) compared with others, 422
Antipyretic drug, N-(2,6-dichloro-*m*-tolyl)anthranilic acid (CI-583) compared with others, 422
Aorta, effect of guanethidine and norepinephrine on strip, 320
Armett, C. J. and Cooper, J. R., 137
Arrhythmias, cardiac, effect of *dl*- and *d*-pronethalol, 94
Atrial rate, effect of acetylcholine, 303
effect of norepinephrine, 303
Atrial refractory period, 100
Automaticity, in cat atria, 303
Autonomic fibers, correlation of acetylcholinesterase and catecholamines in, 225
Autonomic nervous system, identification of acetylcholine-like substance in sympathetic ganglia, 312
Azapetine, compared with new antiadrenergic compounds, 54
Barbiturates, effect on spinal motoneurons, 380
Barker, S. B. and Makiuchi, M., 71
Barlow, G., *see* Beard, J. D., 348
Basch, B. G., *see* Rennick, B. R., 270
Beard, J. D., Barlow, G. and Overman, R. R., 348
Biosynthesis of norepinephrine in heart from various precursors, 1
Bladder, toad, action of ouabain on sodium transport, 106
Blood, electrolytes, effects of ethanol, 348
pressure, effects of eledoisin and substance P, 298
sugar, influence of morphine, 169
Borison, H. L., *see* Moore, K. E., 169
Borzelleca, J. F., 111
Boyajy, L. D. and Nash, C. B., 193
Bradykinin, half-life in dog blood, 117
Brain, effect of cortical ablation on actions of convulsant drugs, 131
Bretylium, influence on cardiac action of thyroxine, 71
Buckley, J. P., *see* Kato, H., 298

Caffeine, effects on contractile force and transmembrane potential of atria, 202
Cafruny, E. J., *see* Komorn, R., 367
Calcium, effect of ouabain on exchange in atria, 284

INDEX

Volume 149, July–September 1965

Acetohexamide metabolism, 272
Acetylcholine in catecholamine depletion by reserpine, morphine and insulin, 193
Acetylcholinesterase-staining, in cholinergic fibers of the gut, 358
Acetylmethadol metabolism in the rat, 436
Acid-base balance, effect on diuresis from furosemide, 404
Adams, J. E., *see* Standaert, F. G., 113
Adamson, R. H., *see* Hart, L. G., 7
Adrenergic blocking agents, effects in frogs, 65
β-Adrenergic blocking drug, cardiovascular response to anoxia, influence, 79
Adrenergic fibers, in gut, 358
β-Adrenergic receptor, block from MJ-1998 and MJ-1999, 183
  blockade by phenethanolamines and pronethalol, 174
Adrenergic receptors in frog heart, 65
β-Adrenergic receptors, blockade by phenethanolamines, 161
Albuquerque, E. X. and Smith, C. M., 320
Alcohol metabolism by isolated perfused rat liver, 36
Allopurinol as an inhibitor of uric acid synthesis, 417
Amphetamine, effects on slow cortical potential oscillation, 301
Analgesic-antagonist interactions in rats, 385
Analgesics, effects on bile duct *in vivo* and *in vitro*, 373
Angiotensin, effects in vascular smooth muscle, 106
Anoxia, coronary vasodilatation, 79
Antiadrenergic agents, effect on response of rat atria to ganglion stimulating agents, 225
Anticonvulsant properties of phencyclidine, 71
Anticurare action, 113
Antidromic motor nerve discharge after succinylcholine, 124
Antimuscarinic agents, antagonism of epinephrine by, 351
  effect on response of rat atria to ganglion stimulating agents, 225
Aortic strip, sensitivity to pressor agents, 106
Arousal in cats, effect of thiopental and DMHP, 138
Arterial smooth muscle, heterogeneous distribution of receptors in, 106
ATP, chronotropic effects on the sinus node of the dog, 233
Atropine, antagonism of epinephrine-induced contractions of nictitating membrane, 351
Autonomic effects of protriptyline, 365
Autonomic fibers, in gut, 358
Aviado, D. M., *see* Folle, L. E., 79

  see Glowinski, J., 43

Benzi, G., *see* Crema, A., 373
Berté, F., *see* Crema, A., 373
Bhagat, B., 206
Bile duct, effects of opioids in cats and dogs, 373
Binding of cyclizine and chlorcyclizine to plasma protein, 29
Bircher, R. P., Chai, C. Y. and Wang, S. C., 91
Bohner, B., *see* Chen, G., 71
Boshart, C. R., Will, L., Pirré, A. and Ringler, I., 57
Bowers, W., *see* Tocco, D. J., 263
Boyd, E. S. and Meritt, D. A., 138
Brain, slow waves in, effect of drugs, 301
  uptake, release and metabolism of norepinephrine by, 43
Brennan, F. T., *see* Wiebelhaus, V. D., 397
Bronchial constriction from morphine and meperidine, 379
Burns, J. J., *see* Kuntzman, R., 29

C^{14}-labeled morphine, distribution of in cat central nervous system, 146
Caffeine, absorption and distribution in coffee-drinkers and nondrinkers, 156
  effects on sleep in coffee-drinkers, 156
Cafruny, E. J., *see* Gussin, R. Z., 1
Cairncross, K. D., McCulloch, M. W. and Mitchelson, F., 365
Campos, H. A., *see* Stitzel, R. E., 193
Cardiovascular effects of β-adrenergic blockade, 174
Carrier, O., Jr. and Holland, W. C., 212
Catalase in metabolism of methanol, 36
Catecholamine, depletion by reserpine, morphine, or insulin, role of acetylcholine, 193
  -fluorescence, in innervation of gut, 358
  levels in tachyphylaxis to amphetamine and tyramine, 206
  -releasing agents, effects of norepinephrine uptake in brain, 43
  uptake, release and metabolism in rat, 43
Catecholamines, direct and indirect effect of stereoisomers, 199
  effect of potentiating agents on uptake, 50
  effects in frog heart and circulation, 65

effects of cocaine on response and distribution, 50
effects of reserpine on response and distribution, 50
in release of free fatty acids by phentolamine, 57
lack of effect of thyroxine on response to, 336
Central nervous system stimulation from phencyclidine, 71
Cetrangolo, R., *see* Erlij, D., 65
Chai, C. Y., *see* Bircher, R. P., 91

INDEX

Volume 150, October—December 1965

Abboud, F. M., *see* Graham, M. H., 46
Abel, R. M., Luchi, R. J., Peskin, G. W., Conn, H. L., Jr. and Miller, L. D., 463
Acetylation, of sulfanilamide, in reticuloendothelial cells, 305
Acetylcholine, content in rat brain, determination by gas chromatography, 231
  mechanism of pressor response to, 75
  release by motor nerves, effects of alcohols, 236
  release in sinoatrial node, effect of calcium, 349
  response of caudate nucleus neurons to, 244
Acetyl-β-methylcholine, effects on synaptic transmission in sympathetic ganglia, 216
Acetylthiocholine, for cholinesterase assay, 84
Adamson, R. H., Ague, S. L., Hess, S. M. and Davidson, J. D., 322
Addiction, to cyclazocine, 426
Adrenal corticoids, and adrenergic responses, 203
Adrenergic blocking agents, effects on response of isolated heart, 34
β-Adrenergic receptors, in isolated hearts, 34
Adrenergic responses, effect of adrenal status, 203
Ague, S. L., *see* Adamson, R. H., 322
Alcohols, effects on neuromuscular transmission, 236
Altura, B. M. and Zweifach, B. W., 23
Amantadine, absorption, distribution, and excretion of, 484
ε-Amino caproic acid, effects on catecholamine and serotonin levels, 196
ω-Amino fatty acid esters of choline, interaction with cholinesterases and neuromuscular effects, 220
Amobarbital, metabolism in man, 118
Amphetamine, influence on inactivation of tyramine, 375
  potentiation of pressor response to tyramine, 375
Analgesic drugs, and pressure response threshold, 165
  testing methods, 165
Anesthesia, effects on spontaneous and drug-induced electrical activity of central nervous system, 244
Anesthetics, local, action as cation on desheathed nerves, 152
  local, effects on myelinated and unmyelinated nerve fibers, 160
Anileridine, metabolic conversion to normeperidine, 309
Anticholinergic drugs, assay of, by mydriatic effects in mice, 389
Anticholinesterase drugs, effect on cholinesterase, 84
Anticonvulsants, influence of aging on activity of, 443
Aqueous humor dynamics, effects of guanethidine on, 393
Armaly, M. F., *see* Long, J. P., 389
Aston, R., 253
ATPase activity, of cornea, effect of ouabain, 398
Axelrod, J., *see* Eisenfeld, A. J., 469
  see Iversen, L. L., 173

Bailey, L. E. and Withrow, C. D., 57
Baker, W. W., *see* Giller, F. B., 203
Barbiturates, rapid development of physical dependence, 140
  sensitivity to, in posttolerant rats, 253
  tolerance to, 253
Barboriak, J. J., *see* Meester, W. D., 34
Begany, A. J., *see* Van Arman, C. G., 328
Berndt, W. O., 414
Bevan, J. A. and Osher, J. V., 370
Bhagat, B. and Gilliam, J., Jr., 41
Bile salts, effects on smooth muscle, 208
Bilirubinemia, potentiation of α-naphthylisothiocyanate in production of, 499
Bleidner, W. E., Harmon, J. B., Hewes, W. E., Lynes, T. E. and Hermann, E. C., 484
Blood pressure, response to tyramine, potentiation by amphetamine, 375
Blood vessels, of rabbit, sensitivity to catecholamines, 370
Bloom, F. E., Costa, E. and Salmoiraghi, G. C., 244
Brain, amine levels after central nervous system lesions, 1
Brown, P., *see* Peters, J. H., 298
Brunner, E. A. and Haugaard, N., 99
Burcin, A., *see* Porter, C. C., 17
Burns, J. J., *see* Lemberger, L., 292
Butyrylcholine, interaction with cholinesterases, 220

Caffeine, effects on mood and performance in man, 146
Cafruny, E. J., *see* Hug, C. C., Jr., 259
Calcium, depletion of smooth muscle, effects of bile salts, 208
  effects on transmitter release in sinoatrial node, 349
Cardiac glycosides, in *Antiaris toxicaria*, 53
Cardiovascular responses after cocaine, 46

Carrageenin, inflammation caused by, 328
Catecholamine, depletion by ε-amino caproic acid, 196
uptake, in nerve granules, 335
Catecholamines, depletion and repletion, 41
α-methyl derivatives of, in dogs, 26
possible role in hyperglycemia from diazoxide, 455
potentiation by cocaine of inotropic and enzymatic effects, 341
sensitivity of blood vessels to, 370
Caudate nucleus, electrical activity of, effects of drugs on, 244
Central nervous system lesions, effect on brain monoamines, 1
Chemoreceptors, as a site of action of acetylcholine, 75
Chen, K. K. and Henderson, F. G., 53
Chlorothiazide, and K excretion, 406
Chlorpromazine, effects on thyroid activity, 129
Cholestatic effects, of α-naphthylisothiocyanate, 499
Choline esters, ganglion stimulation by, 67
of ω-amino fatty acids, interaction with cholinesterases and neuromuscular effects of, 220
Cholinergic receptors, in ganglia, 67
Cholinesterase, in adipose tissue, assay of, 84
Cholinesterases, interaction with choline esters of ω-amino fatty acids, 220
Ciuchta, H. P., *see* Vick, J. A., 382
Clark, B., *see* Hardman, J. G., 341
Cocaine, effects on cardiovascular responses to norepinephrine and tyramine, 46
potentiation by, of norepinephrine effects on cardiac contraction and phosphorylase, 341
Conn, H. L., Jr., *see* Abel, R. M., 463
Conney, A. H., *see* Lemberger, L., 292
Conradi, E. C., Gaffney, T. E., Fink, D. A. and Vangrow, J. S., 26
Convulsant drugs, effects on ribosomal particles of goat brain, 449
Cornea, hydration and ATPase activity, effect of ouabain, 398
Cortex, prepyriform, electrical activity after reserpine, 10
Costa, E., *see* Bloom, F. E., 244
Csáky, T. Z., Prachuabmoh, K., Eiseman, B. and Ho, P. M., 275
Cyclazocine, and pressure response threshold, 165
production of physical dependence, 426
withdrawal from, 426

Datta, R. K. and Ghosh, J. J., 449
Davidson, J. D., *see* Adamson, R. H., 322
N-Dealkylation, of anileridine to normeperidine, 309
Dependence, on cyclazocine, 426
on nalorphine, 437
on pentobarbital, in cats, 140
Diallylmelamine, metabolism, absorption and excretion, 109
Diazoxide, hyperglycemic effects of, 455
Dibucaine, action as cation on desheathed nerve, 152
Dichloroisoproterenol, effect on microvasculature, 23
Digitalis, effect on renal tubular transport of glucose, 275
Digitalis-like substances, of *Antiaris toxicaria*, 53
Digoxin, tritiated, role of liver in metabolism of, 463
Dihydromorphine, renal excretion, 259
Dimethylpyrazole-C^{14}, metabolism in the rat, 316
Diuretic effects, of SKF 525-A, 270
Dopamine, formation from tyrosine by liver microsomes, 292
response of caudate nucleus neurons to, 244
Douglas, J. F., 105
Dulin, W. E., *see* Gerritsen, G. C., 491

Hexamethonium, uptake by kidney slices, 92
Hexethal, metabolism of, in dogs, 473
Ho, P. M., *see* Csáky, T. Z., 275
Hook, J. B. and Williamson, H. E., 270
Hug, C. C., Jr., Mellett, L. B. and Cafruny, E. J., 259
Hydroxydopamine, effects on cardiac norepinephrine stores, 17
Hydroxyurea, distribution, excretion and metabolism of, 322
Hyperglycemia, from diazoxide, effects of various agents on, 455
Hyperthermia, after nalorphine administration, 420
Hypoglycemic effect, of methylpyrazole carboxylic acid, 491
Hypothermia, after morphine administration, antagonism of nalorphine, 420

Inflammation, assay of, in rat's foot, 328
caused by yeast and carrageenin, 328
kinetics of, 328
Inotropic effects, of β-receptor blocking agents, 361
Interval-strength relationship of heart muscle, role of norepinephrine, 184
Intracellular localization, of cholinesterase, 84
Isoniazid, inactivation in man, 298
Isonicotinic acid hydrazide, metabolism and excretion, 298
Isoproterenol, as therapy for endotoxin shock, 382
blocking with dichloroisoproterenol, 23
Isotopic equilibration of plasma and urine, 406
Iversen, L. L., Glowinski, J. and Axelrod, J., 173

Jaffe, J. H. and Sharpless, S. K., 140

Kaizer, S., *see* Goldstein, A., 146
Kaliuresis, effect of chlorothiazide, 406
Karler, R., *see* Petty, W. C., 443
Kato, R. and Gillette, J. R., 279, 285
Kidney slices, uptake of hexamethonium by, 92

Meester, W. D., Hardman, H. F. and Barboriak, J. J., 34
Mellett, L. B., *see* Hug, C. C., Jr., 259
Metabolism, of amantadine, 484
of anileridine, 309
of barbiturates in man, 118
of diallylmelamine, 109
of digoxin, role of liver in, 463
of dimethylpyrazole, 316
of drugs by liver microsomes, effects of abnormal physiologic states, 285
of drugs by liver microsomes, effects of starvation, 279
of free fatty acids, effects of methylpyrazole carboxylic acid, 491
of hexethal, in dogs, 473
of hydroxyurea-C^{14}, 322
of isonicotinic acid hydrazide, 298
of norepinephrine, in sympathetic ganglia, 190
of phenothiazines, 122
of sulfanilamide, 305
of W-398, 105
Methyldopa, effects on tissue norepinephrine levels, 17
Methylnorepinephrine, effects on norepinephrine levels, 17
Methylpyrazole carboxylic acid, effects on carbohydrate and free fatty acid metabolism, 491
Microsomal enzymes, effects of drugs, 285
effects of starvation, 279
in liver, conversion of tyrosine to dopamine, 292
Microsomal enzyme system, effects on α-naphthylisothiocyanate, 499
Microvasculature, mesenteric, evidence for β-receptors, 23
Miller, K. S., *see* Peters, J. H., 298
Miller, L. D., *see* Abel, R. M., 463
Miller, L. M., *see* Van Arman, C. G., 328
Moore, R. Y., *see* Heller, A., 1
Morphine, effects of intracerebral injection on temperature control, 135
effects on thyroid activity, 129
-induced hypothermia, antagonism by nalorphine, 420
Muscle cells, effects of epinephrine on pH of, 57
Mydriasis, as assay for anticholinergic agents in mice, 389
Myers, T., *see* Giller, F. B., 203

Nalorphine, and pressure response threshold, 165
effect on morphine-induced hypothermia, 420
tolerance to and physical dependence on, 437
α-Naphthylisothiocyanate, effects on bilirubin and the bile flow, 499
Narcotic antagonists, and pressure response threshold, 165
Nerve granules, catecholamine uptake in, 335
Nerves, effect of local anesthetics, 152
Nerve sheath, effects on activity of local anesthetics, 160
Neuromuscular effects, of choline esters of ω-amino fatty acids, 220
Neuromuscular transmission, effects of alcohols, 236
Neurophysiological measurements, 10
Norepinephrine, effects on interval-strength relations in heart muscle, 184
in rat brain, effects of lesions, 1
levels in brains and hearts of mice, effects of methyldopa, 17
metabolism in sympathetic ganglia, 190
response of caudate nucleus neurons to, 244
reversal of adrenergic nerve blockade by, 26
sensitization to, by cocaine, 46
uptake and storage after reserpine, 173
Norethynodrel, effect on estrogen binding, 469

Osher, J. V., *see* Bevan, J. A., 370
Ouabain, effect on corneal hydration, 398

Pentazocine, and pressure response threshold, 165
Pentobarbital, acute tolerance to, 253
metabolism in man, 118
Pentylenetetrazol-induced convulsions, during barbiturate withdrawal, 140
Peripheral resistance, response to tyramine, potentiation by amphetamine, 375
Peskin, G. W., *see* Abel, R. M., 463
Peters, J. H., Miller, K. S. and Brown, P., 298
Petty, W. C. and Karler, R., 443
Phenothiazines, metabolism of, 122
Phenoxybenzamine, as therapy for endotoxin shock, 382
Phosphorylase, effects of thiopental on, 99
responses to catecholamines, potentiation by cocaine, 341
Picrotoxin, effects on ribosomal particles of goat brain, 449
Pilocarpine, effects on synaptic transmission in sympathetic ganglia, 216
Plaa, G. L., *see* Roberts, R. J., 499
Pless, H. H., *see* Van Arman, C. G., 328
Porter, C. C., Totaro, J. A. and Burcin, A., 17
Potassium, filtration, reabsorption and secretion, effect of chlorothiazide, 406
Potentiation of pressor response to tyramine, by amphetamine, 375
Prachuabmoh, K., *see* Csáky, T. Z., 275
Propionylcholine, interaction with cholinesterases, 220

Propionylthiocholine, for cholinesterase assay, 84
d-Propoxyphene, and pressure response threshold, 165

β-Receptor blocking agents, effects on cardiac contractile force, 361
β-Receptors, in mesenteric microvasculature, 23
Renal transport, of glucose, effect of digitalis on, 275
of hexamethonium, 92
of uric acid, 414
Reserpine, adrenergic nerve blockade from, 26
effects on norepinephrine uptake and storage, 173
influence on electrical activity of prepyriform cortex, 10
Reticuloendothelial cells, as site of sulfanilamide acetylation, 305
Ribosomal particles, effects of strychnine and picrotoxin on, 449
Richards, V., *see* Levy, J. V., 361

CONTENTS OF VOLUME 147

No. 1, January 1965

Renotropic Characteristics of Ethacrynic Acid: A Phenoxyacetic Saluretic-Diuretic Agent. Karl H. Beyer, John E. Baer, Joan K. Michaelson and Horace F. Russo 1

A Cellular Action of Mercurial Diuretics. Vernon D. Jones, George Lockett and Erwin J. Landon 23

The Saluretic Effects of Arecoline Hydrochloride Infused into the Left Renal Artery of Dogs. Ronald L. Williams, James E. Pearson, Jr. and M. Kathleen Carter 32

Effects of Local Anesthetics on Sodium and Potassium in Human Red Cells. Nikaan B. Andersen and J. S. Gravenstein 40

Mechanism of Epinephrine Inhibition of the Milk Ejecting Response to Oxytocin. W. Y. Chan 48

The Cardiovascular Effects of N-(γ-Methylaminopropyl-Iminodibenzyl)-HCl (Desmethylimipramine) and Guanethidine. A. Kaumann, N. Basso and P. Aramendía 54

Inotropic and Chronotropic Effects of Dichloroisoproterenol on Rat Atria. E. E. Vogin and N. S. Dhalla 65

Contractility, Heart Rate, and Response to Norepinephrine of Isolated Rat Myocardium Following I^{131}-Induced Hypothyroidism. Joseph M. Benforado and L. L. Wiggins 70

Comparison of Effects of Aromatic Sympathomimetic Amines on Rabbit Aortic Strip and Rabbit Blood Pressure. T. P. Pruss, G. D. Maengwyn-Davies and M. Wurzel 76

Blockade of Endogenous Norepinephrine Synthesis by α-Methyl-Tyrosine, an Inhibitor of Tyrosine Hydroxylase. S. Spector, A. Sjoerdsma and S. Udenfriend 86

Effects of *d*-Amphetamine upon Brain Amine Content and Locomotor Activity of Mice. Charles B. Smith 96

A Correlation of the Effects of Cervical Cordotomy, Hypothermia, and Catecholamines on Carbon Tetrachloride-Induced Hepatic Necrosis. Robert E. Larson and Gabriel L. Plaa 103

Morphological Changes in the Liver Accompanying Stimulation of Microsomal Drug Metabolizing Enzyme Activity by Phenobarbital, Chlordane, Benzpyrene or Methylcholanthrene in Rats. James R. Fouts and Larry A. Rogers 112

The Distribution and Fate of *d*-Tubocurarine. Ellis N. Cohen, Aldo Corbascio and Gerald Fleischli 120

Vitamin K-Like and Antivitamin K Activity of Substituted *para*-Benzoquinones. Julius Lowenthal and J. A. MacFarlane 130

In vivo Generation of H_2O_2 in Mouse Erythrocytes by Hemolytic Agents. Gerald Cohen and Paul Hochstein 139

No. 2, February 1965

The Cholinergic Component in the Sympathetic Innervation to the Spleen. Floyd E. Leaders and Conrado Dayrit 145

The Sympathomimetic Effects of 2-Pyridine Aldoxime Methylchloride (2-PAM Cl). Vincent J. Zarro and Joseph R. DiPalma 153

Effects of Tetraethylammonium on Synaptic Transmission in the Frog Sympathetic Ganglion. W. K. Riker 161

Mechanism of the Sympathomimetic Response of the Cat's Iris to Nicotine. Richard A. Atkinson, Darrell Witt and J. P. Long 172

Evidence for Extraneuronal Binding of Norepinephrine. Josef E. Fischer, Irwin J. Kopin and Julius Axelrod 181

"False Neurochemical Transmitters" and the Mechanism of Sympathetic Blockade by Monoamine Oxidase Inhibitors. I. J. Kopin, J. E. Fischer, J. M. Musacchio, W. D. Horst and Virginia K. Weise 186
The Antiarrhythmic Actions of *Beta* Adrenergic Blocking Agents. P. Somani and Bert K. B. Lum 194
The Influence of Reserpine Pretreatment on the Contractile and Metabolic Effects Produced by Ouabain on Isolated Rabbit Left Atria. Joseph V. Levy and V. Richards 205
Quindonium Bromide—Some Aspects of the Cardiovascular Pharmacology. Melville W. Osborne and Martin M. Winbury 212
Protective Action of Quindonium Bromide (W3366A) against Hemorrhage Shock in Dogs. Melville W. Osborne, Howard M. Rowe, Richard N. Kaufman, Melvin C. Johnson, Wilhelmina Willems and Martin M. Winbury 225
Quantitative Relationship of Motor Activity and Oxygen Consumption in Mice. Helmut M. Redetzki 232
The Uptake of 5-Hydroxytryptamine and Histamine by Particulate Fractions of Brain. Joseph D. Robinson, Julius H. Anderson and Jack Peter Green 236
Comparison between the Effects of Hypothalamic Lesions on Brain Amine Levels and Drug Action. John A. Harvey 244
Drug Metabolism in Hypothermia. I. Biliary Excretion of C^{14}-Atropine Metabolites in the Intact and Nephrectomized Rat. Sarah C. Kalser, Elaine J. Kelvington, Mary M. Randolph and Dianne M. Santomenna 252
Drug Metabolism in Hypothermia. II. C^{14}-Atropine Uptake, Metabolism and Excretion by the Isolated, Perfused Rat Liver. Sarah C. Kalser, Elaine J. Kelvington, Mary M. Randolph and Dianne M. Santomenna 260
Inhibition of N′-Methylnicotinamide Secretion by Ouabain in the Chicken Kidney. Bohdan R. Nechay and Laurie M. Pardee, Jr. 270
Pharmacological Studies with Guanisoquin. A. Scriabine, K. D. Booher, J. N. Pereira, W. K. McShane, J. W. Constantine, R. C. Koch and S. Miknius 277

No. 3, March 1965

Concerning the Mechanism of Action of Methylphenidate on the Responses of Rabbit Vascular Tissue to Norepinephrine. R. A. Maxwell 289
The Effect of Guanethidine, Cocaine and Reserpine on the Hypotensive Action of Thiopental. J. M. Stump and W. W. Fleming 298
Interaction of Guanethidine with Adrenergic Neurons. C. C. Chang, E. Costa and B. B. Brodie 303
The Effect of Sympathetic Nerve Stimulation on Isolated Atria of Guinea Pigs and Rabbits Pretreated with Reserpine. U. Trendelenburg 313
Norepinephrine Synthesis and the Pressor Responses to Tyramine in the Spinal Cat. B. Bhagat, E. K. Gordon and I. J. Kopin 319
A Comparison of the Responses of Sympathetic Ganglia and Chemoreceptors to Cholinomimetic Agents and Sodium Cyanide. Achilles J. Pappano and Robert L. Volle 324
Facilitation of Ganglionic Responses after a Period of Preganglionic Stimulation. U. Trendelenburg and Ann Jones 330
Radiochemical Determination of Choline and Acetylcholine Flux from Isolated Tissue. Jeffrey K. Saelens and William R. Stoll 336
A Study of Ataxia and Muscle Spindle Depression Produced in Mammals by a New Unsymmetrical Bis-Methonium Compound. Akira Matsushita, Nobuo Yanagisawa and Hiroshi Shimazu 343
Pharmacological Actions of Oxamides and Hydroxyanilinium Compounds at Frog Neuromyal Junction. Alexander G. Karczmar, K. C. Kim and L. C. Blaber 350
The Effect of EDTA and SCN on Radiocalcium Movement in Frog Rectus Abdominis Muscle during Contractures Induced by Calcium Removal. C. Paul Bianchi 360
Control of 5-Hydroxytryptophan Decarboxylase Activity in the Rat Pineal Gland by Sympathetic Nerves. Solomon H. Snyder, Julius Axelrod, Richard J. Wurtman and Josef E. Fischer 371

Endocrine Modification of Drug Responses in the Rat. WILLIAM F. BOUSQUET, BILLY D. RUPE AND TOM S. MIYA 376
Metabolism of Meclizine in the Rat. S. A. NARROD, A. L. WILK AND C. T. G. KING .. 380
Ethanol Metabolism in Chronic Protein Deficiency. R. S. HORN AND R. W. MANTHEI . 385
Antihistamines and Teratogenicity in the Rat. C. T. G. KING, S. A. WEAVER AND S. A. NARROD 391
The Pteridine Wy-3654 and Its Relationship to Some Other Diuretic Agents. MARVIN E. ROSENTHALE 399
Central Emetic Action and Toxic Effects of Digitalis in Cats. B. B. GAITONDÉ, L. E. MCCARTHY AND H. L. BORISON 409
Emesis Induced by Intracerebroventricular Injections of Apomorphine and Deslanoside in Normal and Chemoreceptive Trigger Zone Ablated Dogs. N. N. SHARE, C. Y. CHAI AND S. C. WANG 416
Index, Volume 147, January–March 1965 423

CONTENTS OF VOLUME 148

No. 1, April 1965

Elucidation of the Rate-Limiting Step in Norepinephrine Biosynthesis in the Perfused Guinea-Pig Heart. Morton Levitt, Sydney Spector, Albert Sjoerdsma and Sidney Udenfriend 1

A Comparison of the Catecholamine Concentrations of Uteri from Several Species and the Alterations Which Occur during Pregnancy. Keung-Sup Cha, Woo-Choo Lee, A. Rudzik and J. W. Miller 9

Catecholamine Levels and Dopa-Decarboxylase Activity in Peripheral Organs and Adrenergic Tissues in the Rat after Immunosympathectomy. Gerda I. Klingman 14

Subcellular Distribution of Some Sympathomimetic Amines and Their β-Hydroxylated Derivatives in the Rat Heart. Jose M. Musacchio, Irwin J. Kopin and Virginia K. Weise 22

The Influence of Cocaine on Some Metabolic Effects and the Distribution of Catecholamines. Joel G. Hardman and Steven E. Mayer 29

Antagonism of Monoamine Oxidase Inhibitors against Norepinephrine, Acetylcholine and Potassium in the Isolated Nictitating Membrane of the Cat. T. H. Tsai and W. W. Fleming 40

A Study of the Potentiation of Tryptamine by Monoamine Oxidase Inhibitors in the Dog. John Nelson Eble 48

Pharmacology of a Group of Phenylpiperazine Tetrazole Derivatives with Adrenergic Blocking Actions. Rodolfo Rodríguez, Enrique Hong, Horacio Vidrio and Efraín G. Pardo 54

Nicotine-Like Stimulant Actions of Several Substituted Phenylcholine Ethers. M. E. Coleman, A. H. Hume and W. C. Holland 66

Effect of Guanethidine and Bretylium on Heart Rate Responses to Thyroxine. S. B. Barker and Masao Makiuchi 71

The Effect of Thyroxin, Corticosteroids, and Epinephrine on Atrial Rate. G. M. Cravey and J. S. Gravenstein 75

Prolonged Survival of Skin Homografts in Syrian Hamsters Treated with Adrenal Steroids and ACTH. William L. Elkins 80

Addition of the Saluretic Action of Furosemide to the Saluretic Action of Certain Other Agents. Jerry B. Hook and Harold E. Williamson 88

The Effects of Pronethalol and Its *dextro* Isomer upon Experimental Cardiac Arrhythmias. Benedict R. Lucchesi 94

The Mechanism of the Atrial Refractory Period Change Produced by Ouabain. William C. Govier 100

A Biphasic Action of Ouabain on Sodium Transport in the Toad Bladder. Thomas K. McClane 106

Studies on the Mechanisms of Drug Movement from the Isolated Urinary Bladder. Joseph F. Borzelleca 111

An *in vivo* Estimation of the Potencies and Half-Lives of Synthetic Bradykinin and Kallidin. D. A. McCarthy, D. E. Potter and E. D. Nicolaides 117

Respiratory Effects of Trichlorethylene, Halothane and Methoxyflurane in the Cat. S. H. Ngai, R. L. Katz and S. E. Farhie 123

Increased Sensitivity to Pentylenetetrazol and Flurothyl Following Cortical Ablations in Rats. Martin W. Adler 131

No. 2, May 1965

The Role of Thiamine in Nervous Tissue: Effect of Antimetabolites of the Vitamin on Conduction in Mammalian Nonmyelinated Nerve Fibers. Christine J. Armett and Jack R. Cooper 137

Effects of Diphenylhydantoin on Electroshock Seizure Thresholds in Developing Rats. Antonia Vernadakis and Dixon M. Woodbury 144

Central Nervous System Depressant Activity of MA1337, 3-[3-(4-*m*-Chlorophenyl-1-Piperazyl)Propyl]-2,4(1H,3H)Quinazolinedione Hydrochloride. HIROSHI FUJIMORI AND DONALD P. COBB 151
A Pharmacological Study of the Ephedrine Isomers. POPAT N. PATIL, A. TYE AND J. B. LAPIDUS 158
Blood Glucose and Brain Catecholamine Levels in the Cat Following the Injection of Morphine into the Cerebrospinal Fluid. K. E. MOORE, L. E. MCCARTHY AND H. L. BORISON 169
Comparative Distribution of Tritium-Labeled Dihydromorphine between Maternal and Fetal Rats. JOHN H. SANNER AND L. A. WOODS 176
Studies on the Mechanism of Detoxification of Cholinergic Phosphorothioates. ROBERT A. NEAL AND KENNETH P. DUBOIS 185
Influence of Reserpine on Arrhythmias, Inotropic Effects, and Myocardial Potassium Balance Induced by Digitalis Materials. LOUIS D. BOYAJY AND CLINTON B. NASH 193
Effects of Caffeine on Mammalian Atrial Muscle, and Its Interaction with Adenosine and Calcium. TAISIJA DE GUBAREFF AND WILLIAM SLEATOR, JR. 202
The Inotropic Action of *d*-Aldosterone on Papillary Muscles Isolated from Monkeys. WINIFRED G. NAYLER 215
Studies on Veratrum Alkaloids. XXXVIII. The Effects of *l*-Ethomoxane and of Veratramine on Isolated Mammalian and Invertebrate Hearts and on the Isolated Guinea-Pig Ileum. W. W. FLEMING AND D. F. HAWKINS 218
Histochemical Correlations of Acetylcholinesterase and Catecholamines in Postganglionic Autonomic Nerves of the Cat, Rabbit, and Guinea Pig. DAVID JACOBOWITZ AND GEORGE B. KOELLE 225
Separation of Adrenergic and Cholinergic Fibers in Sympathetic Nerves to the Hind Limb of the Dog by Hemicholinium (HC-3). FLOYD E. LEADERS 238
Potentiation of Norepinephrine in the Isolated Vas Deferens of the Rat by Some CNS Stimulants and Antidepressants. R. C. URSILLO AND J. JACOBSON 247
Multiple Inhibitory Effects of α-Methylamino Acids on the Metabolism of C^{14}-Labeled Tyrosine, Dopa and α-Methyldopa. J. F. MORAN AND T. L. SOURKES 252
Effects of Autonomic Drugs on Renal Tubular Transport of Catecholamines in the Chicken. BARBARA R. RENNICK AND MARILYN Z. PRYOR 262
Urinary Metabolites of Epinephrine and Norepinephrine in the Chicken. BARABARA R. RENNICK, MARILYN Z. PRYOR AND BARBARA G. BASCH 270

No. 3, June 1965

A Study on the Effect of Cardiac Glycosides on the Syneresis of Myofibrils in the Presence of Relaxing Factor. KWANG SOO LEE, DAI HYUN YU AND J. J. STRUTHERS 277
The Relationship between Atrial Contractions and the Effect of Ouabain on Contractile Strength and Calcium Exchange in Rabbit Atria. WILLIAM C. GOVIER AND WILLIAM C. HOLLAND 284
Cardiovascular and Metabolic Interrelationships between Thyroxine and the Sympathetic Nervous System. MARILYN E. HESS AND JOSEPH SHANFELD 290
The Effects of Eledoisin and Substance P in the Dog Cross Circulation Preparation. HITOSHI KATO AND JOSEPH P. BUCKLEY 298
Initiation of Automaticity by Acetylcholine and Norepinephrine in Isolated Quiescent Atria of the Cat. GERALD E. GROBLEWSKI AND VICTOR DISTEFANO 303
The Chemical and Physical Identification of Acetylcholine Obtained from Sympathetic Ganglia. ABRAM J. D. FRIESEN, JOHN W. KEMP AND DIXON M. WOODBURY 312
Concerning the Mode of Action of Guanethidine and Some Derivatives in Augmenting the Vasomotor Action of Adrenergic Amines in Vascular Tissues of the Rabbit. R. A. MAXWELL 320
Supersensitivity by Cocaine to Dextrorotatory Isomers of Norepinephrine and Epinephrine. U. TRENDELENBURG 329
Effect of Insulin on Potassium Exchange in Normal and Ouabain-Treated Skeletal Muscle. D. R. H. GOURLEY 339

Body Fluids and Blood Electrolytes in Dogs Subjected to Chronic Ethanol Administration. JAMES D. BEARD, GEORGE BARLOW AND R. R. OVERMAN 348
Natriuretic and Antiglycogenic Activities of a Series of Symmetrical Triazine and Pteridine Derivatives. T. W. SKULAN AND F. E. SHIDEMAN 356
Renal Hemodynamic and Electrolyte Excretion Effects of the Urinary Diuretic Factor (UDF). J. MAXWELL LITTLE 363
Effects of Ethacrynic Acid on Renal Protein-Bound Sulfhydryl Groups. ROBERT KOMORN AND E. J. CAFRUNY 367
Nociceptive Thresholds as Affected by Parenteral Administration of Irritants and of Various Antinociceptive Drugs. CHARLES A. WINTER AND LARS FLATAKER 373
Selective Depression of *Alpha* Motoneurons of Small Size by Ether. G. SOMJEN, D. CARPENTER AND E. HENNEMAN 380
Some Effects of Morphine on Respiration and Metabolism of Rats. NORIO KOKKA, HENRY W. ELLIOTT AND E. LEONG WAY 386
Distribution of N-C^{14}-Methyl Labeled Morphine. III. Effect of Nalorphine in the Central Nervous System and Other Tissues of Tolerant Dogs. S. J. MULÉ 393
The Metabolic Fate of C^{14}-Labeled Chlordiazepoxide in Man, in the Dog, and in the Rat. B. A. KOECHLIN, M. A. SCHWARTZ, G. KROL AND W. OBERHANSLI 399
The Distribution and Metabolism of Fluphenazine Enanthate. A. G. EBERT AND S. M. HESS 412
Anti-Inflammatory and Antipyretic Properties of N-(2,6-Dichloro-*m*-Tolyl)Anthranilic Acid (CI-583). C. V. WINDER, J. WAX AND M. WELFORD 422
Index, Volume 148, April–June 1965 431

CONTENTS OF VOLUME 149

No. 1, July 1965

Effects of Ethacrynic Acid on Renal Uptake of Mercury. Robert Z. Gussin and Edward J. Cafruny 1

The Stimulation of Drug Metabolism in Various Rat Hepatomas. Larry G. Hart, Richard H. Adamson, Harold P. Morris and James R. Fouts 7

Enzymatic Formation of O-Methylated Dihydroxy Derivatives from Phenolic Amines and Indoles. Julius Axelrod, Joseph K. Inscoe and John Daly 16

The Metabolic Fate of 5-Allyl-5-(1-Methylbutyl)Barbituric Acid (Secobarbital). William J. Waddell 23

Physiological Distribution and Metabolic Inactivation of Chlorcyclizine and Cyclizine. R. Kuntzman, A. Klutch, I. Tsai and J. J. Burns 29

Methanol Metabolism in the Isolated Perfused Rat Liver. D. R. Van Harken, T. R. Tephly and G. J. Mannering 36

Effect of Drugs on the Uptake, Release, and Metabolism of H^3-Norepinephrine in the Rat Brain. Jacques Glowinski and Julius Axelrod 43

Influence of Cocaine and of Pretreatment with Reserpine on the Pressor Effect and the Tissue Uptake of Infected *dl*-Catecholamines-2-H^3. P. A. Van Zwieten, S. Widhalm and G. Hertting 50

The Effects of Reserpine, Guanethidine and Other Autonomic Drugs on Free Fatty Acid Mobilization Induced by Phentolamine. C. R. Boshart, L. Will, A. Pirré and I. Ringler 57

Adrenotropic Receptors in the Frog. David Erlij, Ruth Cetrangolo and Roberto Valadez 65

An Investigation on the Sympathomimetic Properties of Phencyclidine by Comparison with Cocaine and Desoxyephedrine. Graham Chen, Charles R. Ensor and Barbara Bohner 71

Cardiovascular Effects of Anoxia and the Influence of a New *Beta* Adrenergic Receptor Blocking Drug. Luis E. Folle and Domingo M. Aviado 79

Effects of Hexamethonium and Tetraethylammonium on Cardiac Arrhythmias Produced by Pentylenetetrazol, Picrotoxin and Deslanoside in Dogs. Rudolf P. Bircher, C. Y. Chai and S. C. Wang 91

Some Consequences of Long-Term Mecamylamine Administration to Experimental Animals. Horacio Vidrio, Jaime Gómez, Rodolfo Rodríguez and Efrain G. Pardo 98

Pharmacologically Heterogeneous Smooth Muscle Cell Distribution in Blood Vessels. Avril V. Somlyo, Russell L. Sandberg and Andrew P. Somlyo 106

The Actions of Succinylcholine on the Mammalian Motor Nerve Terminal. Frank G. Standaert and John E. Adams 113

On the Mechanism of Fascicular Twitching Following Administration of Succinylcholine Chloride. Masamichi Kato and Bunichi Fujimori 124

Effects of 1-Piperidino-2-Methyl-3-(*p*-Tolyl)Propan-3-On upon Spinal Motor Activities and EEG. Masamichi Kato, Fumiaki Motokizawa and Bunichi Fujimori 131

Effects of Thiopental and a Tetrahydrocannabinol Derivative on Arousal and Recruiting in the Cat. E. S. Boyd and D. A. Meritt 138

Central Nervous System Distribution and Metabolism of C^{14}-Morphine During Morphine-Induced Feline Mania. H. I. Chernov and L. A. Woods 146

Psychotropic Effects of Caffeine in Man. I. Individual Differences in Sensitivity to Caffeine-Induced Wakefulness. Avram Goldstein, Richard Warren and Sophia Kaizer 156

No. 2, August 1965

Pharmacological and Toxicological Properties of Two New β-Adrenergic Receptor Antagonists. P. M. Lish, J. H. Weikel and K. W. Dungan 161

Cardiovascular Pharmacology of Two New β-Adrenergic Receptor Antagonists. H. C. Stanton, T. Kirchgessner and K. Parmenter 174
Effect of Some New β-Adrenergic Blocking Agents on Certain Metabolic Responses to Catecholamines. D. C. Kvam, D. A. Riggilo and P. M. Lish 183
Effect of Hemicholinium on the Catecholamine Depleting Actions of Reserpine, Morphine and Insulin in Rabbit Tissues. R. E. Stitzel, H. A. Campos and F. E. Shideman 193
The Effects of Reserpine Pretreatment on the D- and L-Isomers of Some Sympathomimetic Amines. Popat N. Patil, A. Tye and J. B. LaPidus 199
Pressor Responses to Amphetamine in the Spinal Cat and Its Influence on Tachyphylaxis to Tyramine. B. Bhagat 206
Supersensitivity in Perfused Isolated Arteries after Reserpine. Oliver Carrier, Jr. and William C. Holland 212
An Effect of pH upon Epinephrine Inotropic Receptors in the Turtle Heart. Harold F. Hardman and Robert C. Reynolds 219
Mechanism for Nicotine and DMPP on the Isolated Rat Atria-Vagus Nerve Preparation. Tzu Sung Chiang and Floyd E. Leaders 225
The Chronotropic Action of ATP and Related Compounds Studied by Direct Perfusion of the Sinus Node. Thomas N. James 233
H^3-Digoxin Metabolism by Adult Male Rat Tissues *in Vitro*. G. L. Lage and J. L. Spratt 248
Excretion of Radioactive Digitoxin by the Dog. B. G. Katzung and F. H. Meyers 257
Absorption, Metabolism and Elimination of Thiabendazole in Farm Animals and a Method for Its Estimation in Biological Materials. Dominick J. Tocco, John R. Egerton, William Bowers, Victoria W. Christensen and Charles Rosenblum 263
The Nature of the Metabolites of Acetohexamide in the Rat and in the Human. Robert E. McMahon, Frederick J. Marshall and Hilman W. Culp 272
The Pharmacology of Sulfaethoxypyridazine in the Heifer. W. H. Linkenheimer, S. J. Stolzenberg and L. A. Wozniak 280
The Pharmacological Properties of Norbormide, a Selective Rat Toxicant. Adolph P. Roszkowski 288

No. 3, September 1965

Effect of Drugs on Spontaneous Slow Potential Oscillations of the Cerebral Cortex. Stata Norton and Robert E. Jewett 301
Effects of 2-PAM and TMB-4 on Neuromuscular Transmission. Joseph H. Fleisher, Thomas H. Moen and Niles R. Ellingson 311
Stimulation of Muscle Spindle Afferents by DMPP. Edson Xavier Albuquerque and Cedric M. Smith 320
The Effects of Injected Norepinephrine and Sympathetic Nerve Stimulation in Hypothyroid and Hyperthyroid Dogs. Harry S. Margolius and Thomas E. Gaffney 329
An Experimental Evaluation of the Reputed Influence of Thyroxine on the Cardiovascular Effects of Catecholamines. J. B. van der Schoot and Neil C. Moran 336
Vascular and Metabolic Effects of Epinephrine in the Isolated Perfused Rat Liver. Albert B. Craig, Jr. 346
Effects of Atropine and Related Alkaloids on Epinephrine Induced Contractions of the Cat Nictitating Membrane. Peter d'Alena and Robert M. Featherstone 351
Histochemical Studies of the Autonomic Innervation of the Gut. David Jacobowitz 358
The Action of Protriptyline on Peripheral Autonomic Function. K. D. Cairncross, Marian W. McCulloch and F. Mitchelson 365
The Responses of the Terminal Bile Duct to Morphine and Morphine-Like Drugs. Antonio Crema, G. Benzi, G. M. Frigo and F. Berté 373
Effects of Meperidine Hydrochloride and Morphine Sulfate on the Lung Capacity of Intact Dogs. Irving Shemano and Herbert Wendel 379
The Analgesic Effect of Opiate-Opiate Antagonist Combinations in the Rat. Leonard Grumbach and Harvey I. Chernov 385

The Diuretic and Natruretic Activity of Triamterene and Several Related Pteridines in the Rat. VIRGIL D. WIEBELHAUS, JOSEPH WEINSTOCK, ALFRED R. MAASS, FRANCIS T. BRENNAN, GENEVIEVE SOSNOWSKI AND THEODORE LARSEN 397
Influence of Probenecid and Alterations in Acid-Base Balance of the Saluretic Activity of Furosemide. JERRY B. HOOK AND HAROLD E. WILLIAMSON 404
Structure-Activity Relationships in a Series of Colchicine Analogs. RICHARD SCHINDLER 409
Inhibition of Uric Acid Biosynthesis in the Chick Embryo and Chicken by a Xanthine Oxidase Inhibitor, 4-Hydroxypyrazolo(3,4d)Pyrimidine. IRWIN H. KRAKOFF AND RICHARD L. MEYER 417
Metabolism of Diazepam in Rat, Dog, and Man. MORTON A. SCHWARTZ, BERNARD A. KOECHLIN, EDWARD POSTMA, SHELDON PALMER AND GEORGE KROL 423
The Metabolism of *α-dl*-Acetylmethadol in the Rat: The Identification of the Probable Active Metabolite. ROBERT E. MCMAHON, HILMAN W. CULP AND FREDERICK J. MARSHALL 436
Tritium-Labeled Dihydromorphine: Its Metabolic Fate and Excretion in the Rat. C. C. HUG, JR. AND L. B. MELLETT 446
Index, Volume 149, July–September 1965 455

COPYRIGHT © 1965 BY THE WILLIAMS & WILKINS COMPANY

CONTENTS OF VOLUME 150

No. 1, October 1965

Effect of Central Nervous System Lesions on Brain Monoamines in the Rat. Alfred Heller and Robert Y. Moore 1

Electrical Activity of the Prepyriform Cortex after Reserpine in the Rat. Beatriz Williams, Dorothy E. Woolley and Paola S. Timiras 10

The Relationship between Radioactivity and Norepinephrine Concentrations in the Brains and Hearts of Mice Following Administration of Labeled Methyldopa or 6-Hydroxydopamine. Curt C. Porter, James A. Totaro and Andre Burcin 17

Evidence for *Beta* Receptors in the Rat Mesenteric Microvasculature. Burton M. Altura and Benjamin W. Zweifach 23

Reversal of Sympathetic Nerve Blockade: A Comparison of Dopa, Dopamine, and Norepinephrine with Their α-Methylated Analogues. E. C. Conradi, T. E. Gaffney, D. A. Fink and J. S. Vangrow 26

Evaluation of Various Adrenergic Blocking Agents in Isolated Rabbit and Turtle Hearts. Walter D. Meester, Harold F. Hardman and Joseph J. Barboriak 34

Effect of Various Procedures on the Repletion of Cardiac Catecholamine Stores after Tyramine. B. Bhagat and J. Gilliam, Jr. 41

Effect of Cocaine on Cardiovascular Responses in Intact Dogs. Michael H. Graham, Francois M. Abboud and John W. Eckstein 46

Digitalis-Like Substances of *Antiaris*. K. K. Chen and F. G. Henderson 53

The Effect of Epinephrine on Intracellular Acid-Base Metabolism of Rat Skeletal Muscle. L. E. Bailey and C. D. Withrow 57

Hepatic Electrolyte and Glucose Responses to Epinephrine. Fredric S. Elliott, Fred M. Levin and William C. Shoemaker 61

Ganglionic Stimulating Properties of Aliphatic Esters of Choline and Thiocholine. Gerard L. Gebber and Robert L. Volle 67

Activity of the Splanchnic Nerve and Carotid Chemoreceptors in the Origin of Pressor Responses to Acetylcholine. R. W. Gardier and D. L. Traber 75

Cholinesterase of Adipose Tissue. R. A. Salvador and R. Kuntzman 84

The Uptake of Hexamethonium-C^{14} by Kidney Slices. Robert J. McIsaac 92

The Effect of Thiopental on Hepatic Glycogen Phosphorylase. Edward A. Brunner and Niels Haugaard 99

Metabolic Fate of Benzyl N-Benzyl Carbethoxyhydroxamate (W-398). J. F. Douglas 105

The *in Vivo* Production of a Potent, Long-Acting Hypotensive Metabolite from Diallylmelamine. G. R. Zins 109

The Alcoholic Metabolites of Pentobarbital and Amobarbital in Man. E. W. Maynert 118

Side-Chain Degradation and Ring Hydroxylation of Phenothiazine Tranquilizers. Vivian Fishman and Harry Goldenberg 122

The Effects of Morphine, Chlorpromazine and Reserpine on Pituitary-Thyroid Activity in Rats. Robert George and Peter Lomax 129

Temperature Responses in the Rat Following Intracerebral Microinjection of Morphine. V. J. Lotti, Peter Lomax and R. George 135

The Rapid Development of Physical Dependence on Barbiturates. Jerome H. Jaffe and Seth K. Sharpless 140

Psychotropic Effects of Caffeine in Man. II. Alertness, Psychomotor Coordination, and Mood. Avram Goldstein, Sophia Kaizer and Richard Warren 146

The Active Structure of Local Anesthetics. J. M. Ritchie, Brenda Ritchie and Paul Greengard 152

The Effect of the Nerve Sheath on the Action of Local Anesthetics. J. M. Ritchie, Brenda Ritchie and Paul Greengard 160

Reaction Thresholds to Pressure in Edematous Hindpaws of Rats and Responses to Analgesic Drugs. Charles A. Winter and Lars Flataker 165

Erratum 172

No. 2, November 1965

The Uptake and Storage of H^3-Norepinephrine in the Reserpine-Pretreated Rat Heart. L. L. Iverson, J. Glowinski and J. Axelrod 173
Role of Norepinephrine Release in the Interval-Strength Relationship of Heart Muscle. Jan Koch-Weser 184
Disposition of Norepinephrine-H^3 in Sympathetic Ganglia. Josef E. Fischer and Solomon Snyder 190
Effects of the Administration of Epsilon Amino Caproic Acid on Catecholamine and Serotonin Levels in the Rat and Dog. W. Lippmann and M. Wishnick 196
Adrenocortical Activity and Peripheral Adrenergic Responses in the Cat. F. B. Giller, T. Myers, W. W. Baker and G. V. Rossi 203
The Effect of Bile Salts on Contractility and Calcium Depletion of Polarized and Depolarized Smooth Muscle. M. P. Sparrow and W. J. Simmonds 208
The Actions of McN-A-343, Pilocarpine and Acetyl-β-Methylcholine on Sympathetic Ganglion Cells of the Frog. B. L. Ginsborg 216
ω-Amino Fatty Acid Esters of Choline: Interaction with Cholinesterases and Neuromuscular Activity in Man. Francis F. Foldes and Vera M. Foldes 220
Estimation of the Acetylcholine Content of Rat Brain by Gas Chromatography. William B. Stavinoha and Leonard C. Ryan 231
The Effect of Methyl, Ethyl and n-Propyl Alcohol on Neuromuscular Transmission in the Rat. P. W. Gage 236
Anesthesia and the Responsiveness of Individual Neurons of the Caudate Nucleus of the Cat to Acetylcholine, Norepinephrine and Dopamine Administered by Microelectrophoresis. F. E. Bloom, E. Costa and G. C. Salmoiraghi 244
Quantitative Aspects of Tolerance and Posttolerance Hypersensitivity to Pentobarbital in the Rat. Roy Aston 253
Stop-Flow Analysis of the Renal Excretion of Tritium-Labeled Dihydromorphine. C. C. Hug, Jr., L. B. Mellett and E. J. Cafruny 259
Localization of the Site of the Natruretic Action of SKF 525-A. Jerry B. Hook and Harold E. Williamson 270
The Effect of Digitalis on the Renal Tubular Transport of Glucose in Normal and in Heartless Dogs. T. Z. Czáky, Kampoź Prachuabmoh, B. Eiseman and P. M. Ho 275
Effect of Starvation on NADPH-Dependent Enzymes in Liver Microsomes of Male and Female Rats. Ryuichi Kato and James R. Gillette 279
Sex Differences in the Effects of Abnormal Physiological States on the Metabolism of Drugs by Rat Liver Microsomes. Ryuichi Kato and James R. Gillette 285
Metabolism of Tyramine to Dopamine by Liver Microsomes. L. Lemberger, R. Kuntzman, A. H. Conney and J. J. Burns 292
Studies on the Metabolic Basis for the Genetically Determined Capacities for Isoniazid Inactivation in Man. J. H. Peters, K. S. Miller and P. Brown 298
Reticuloendothelial Cells as the Site of Sulfanilamide Acetylation in the Rabbit. William C. Govier 305
N-Dealkylation of Anileridine to Normeperidine. Shih-Chia Chen Lin and E. Leong Way 309
Metabolism of 3,5-Dimethylpyrazole-C^{14} in the Rat. David L. Smith, Arlington A. Forist and George C. Gerritsen 316
The Distribution, Excretion and Metabolism of Hydroxyurea-C^{14}. Richard H. Adamson, Sara L. Ague, Sidney M. Hess and Jack D. Davidson 322
Some Details of the Inflammations Caused by Yeast and Carrageenin (with Appendix on Kinetics of the Reaction). C. G. Van Arman, A. J. Begany, L. M. Miller and H. H. Pless 328

No. 3, December 1965

Stereospecificity of Amine Uptake Mechanism in Nerve Granules. L. Stjärne and U. S. von Euler 335
Cocaine Potentiation of the Cardiac Inotropic and Phosphorylase Responses to Cate-

cholamines as Related to the Uptake of H^3-Catecholamines. JOEL G. HARDMAN, STEVEN E. MAYER AND BETTY CLARK 341
Modification by Calcium of the Release of Autonomic Mediators in the Isolated Sinoatrial Node. FRANK F. VINCENZI AND THEODORE C. WEST 349
Inotropic and Metabolic Effects of Three *Beta*-Adrenergic Receptor Blocking Drugs on Isolated Rabbit Left Atria. JOSEPH V. LEVY AND V. RICHARDS 361
Relative Sensitivity of Some Large Blood Vessels of the Rabbit to Sympathomimetic Amines. JOHN A. BEVAN AND J. V. OSHER 370
The Potentiation of the Pressor Response to Tyramine by Amphetamine in the Anesthetized Dog. JOHN NELSON EBLE AND ALLAN RUDZIK 375
Use of Isoproterenol and Phenoxybenzamine in Treatment of Endotoxin Shock. JAMES A. VICK, HENRY P. CIUCHTA AND JAMES H. MANTHEI 382
Studies of the Mydriatic Properties of Anticholinergic Agents in Mice. J. P. LONG AND MANSOUR F. ARMALY 389
The Mechanism of Action of Guanethidine on Aqueous Humor Dynamics. EDITH D. HENDLEY AND KENNETH E. EAKINS 393
The Effect of Ouabain on the Hydration and the Adenosine Triphosphatase Activity of the Cornea. MAURICE E. LANGHAM AND MICHAEL KOSTELNIK 398
On the Mechanism of Chlorothiazide-Induced Kaliuresis in the Rabbit. E. C. FOULKES 406
The Efflux of Urate from Rabbit Renal Cortex Slices. W. O. BERNDT 414
N-Allylnormorphine Antagonism of the Hypothermic Effect of Morphine in the Rat Following Intracerebral and Systemic Administration. V. J. LOTTI, PETER LOMAX AND R. GEORGE 420
Studies of the Dependence-Producing Potential of the Narcotic Antagonist 2-Cyclopropylmethyl-2′-Hydroxy-5,9-Dimethyl-6,7-Benzomorphan (Cyclazocine, Win-20,740, ARC II-C-3). W. R. MARTIN, H. F. FRASER, C. W. GORODETZKY AND D. E. ROSENBERG 426
Demonstration of Tolerance to and Physical Dependence on N-Allylnormorphine (Nalorphine). W. R. MARTIN AND C. W. GORODETZKY 437
The Influence of Aging on the Activity of Anticonvulsant Drugs. W. CLAYTON PETTY AND RALPH KARLER 443
Action of Strychnine and Picrotoxin on Ribosomal Particles of Brain Cortex Tissue. R. K. DATTA AND J. J. GHOSH 449
Further Studies on the Metabolic Effects of Diazoxide. I. I. A. TABACHNICK, A. GULBENKIAN AND F. SEIDMAN 455
Metabolism of Digoxin: Role of the Liver in Tritiated Digoxin Degradation. RONALD M. ABEL, ROBERT J. LUICHI, GERALD W. PESKIN, HADLEY L. CONN, JR. AND LEONARD D. MILLER 463
Selectivity of Estrogen Distribution in Tissues. ARNOLD J. EISENFELD AND JULIUS AXELROD 469
On the Specificity of Penultimate Oxidation. The Fate of 5-Ethyl-5-n-Hexylbarbituric Acid. E. W. MAYNERT 473
Absorption, Distribution and Excretion of Amantadine Hydrochloride. W. E. BLEIDNER, J. B. HARMON, W. E. HEWES, T. E. LYNES AND E. C. HERMANN 484
The Effect of 5-Methylpyrazole-3-Carboxylic Acid on Carbohydrate and Free Fatty Acid Metabolism. GEORGE C. GERRITSEN AND WILLIAM E. DULIN 491
Potentiation and Inhibition of α-Naphthylisothiocyanate-Induced Hyperbilirubinemia and Cholestasis. ROBERT J. ROBERTS AND GABRIEL L. PLAA 499
Index, Volume 150, October–December 1965 507
